# ion

## For all senses

Amphion Ion is physically small but offers enormous performance. Ion's range is complete, musically rich, and highly resolved. Soft rounded shapes and classic proportions make Ion a modern, yet timeless design. When you desire the best possible sound without the bulk of normal loudspeakers, choose Ion. Which color is the right one for your décor: white, black, or silver?

### Award Winning Industrial Design

At its introduction, Ion was awarded a coveted design prize at the respected Habitare exhibition in Helsinki. Ion was chosen by the Finnish Interior Journalists Association as one of their favorites: "Small and petite, but with Top Class Sound".

### Innovative U/D/D Technology

Ion uses Amphion's proprietary U/D/D technology (Uniformly Directive Diffusion), which allows the speaker to work at optimal level in all kinds of rooms, and makes positioning a breeze. Of course, Ion performs superbly in both stereo and home theater applications.

Amphion speakers are designed and manufactured in Finland.

Operational principle:	2-way bass reflex
Tweeter:	1"
Bass driver:	4 1/2"
Crossover:	1600 Hz
Impedance:	8 ohm
Sensitivity:	86 dB
Frequency range:	55-20 000 Hz, -6dB
Power recommendation:	20-120 W
Measurements (h x w x d):	10 1/2" x 5 1/4" x 8 3/4" (268 x 134 x 220 mm)
Weight:	10 1/2 lbs. (4,7 kg) per piece
Enclosure material:	Painted 3/4", (19 mm) MDF
Colors:	Black, Silver, and White
